Welcome

Ben & Amy Kendrew Lead Pastors of Arise Church

Arise Church has a mandate to train and equip people to be ministers! We believe God has called this church to do so with intentionality and focus, and the Arise Ministry School is one of the greatest ways for that to be outworked. This is an environment of growth and empowerment to see people step into their God-given purpose with strength.

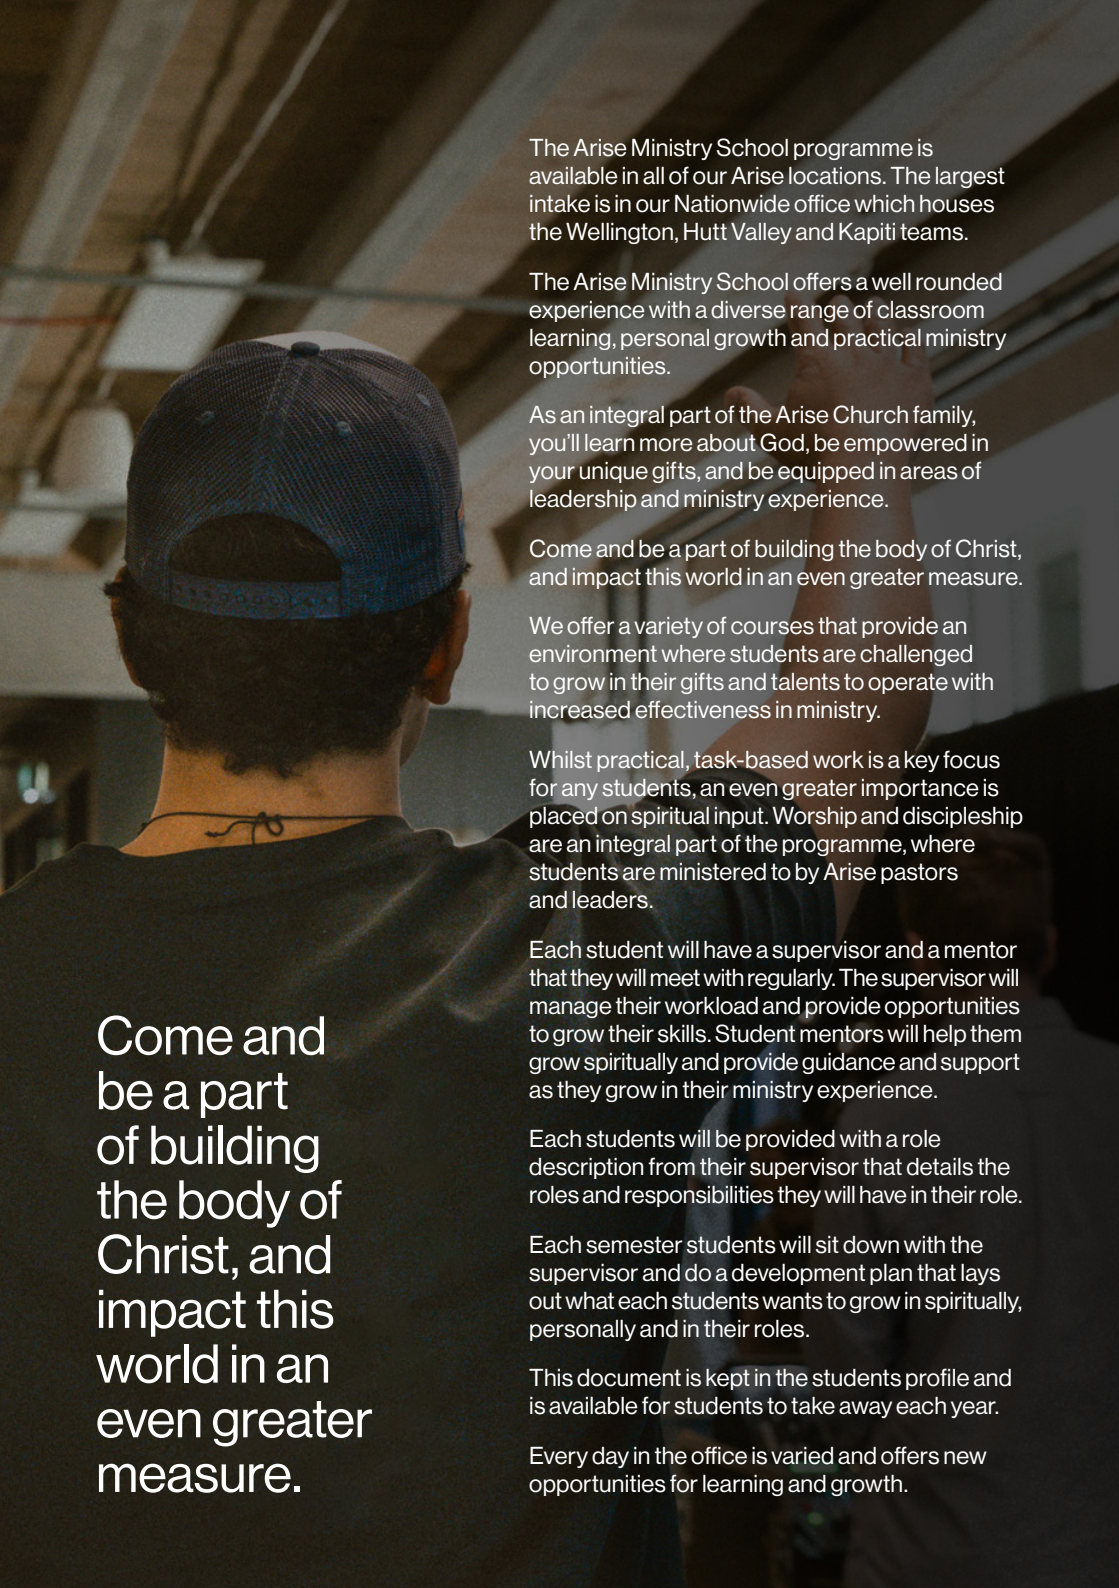

Our theme scripture for the Ministry School is 2 Peter 1:3-8, which declares that "By His divine power, God has given us everything we need to live a godly life..." and that we are called to take what He has given us and grow it. The scripture promises that "The more you grow like this, the more productive and useful you will be in your knowledge of our Lord Jesus Christ." That's what we believe for every person in the Arise Ministry School — to be more productive and useful as ministers in the church, home and marketplace!

Over the past 15 years, hundreds of people have found the Ministry School to be a place of growth and many testify to the development they experienced in the environment. The School has undergone significant change in recent years and we believe that many more students will discover it to be transformational & deeply impacting.

We urge you to prayerfully consider whether God is prompting you to take the next year or years to grow in your character and your capacity to outwork His call in your life. We pray for Him to guide you and for boldness as you take a step in pursuit of Him.

Love,

Ben and Amy Kendrew

Come and
be a part
of building
the body of
Christ, and
impact this
world in an
even greater
measure.

The Arise Ministry School programme is available in all of our Arise locations. The largest intake is in our Nationwide office which houses the Wellington, Hutt Valley and Kapiti teams.

The Arise Ministry School offers a well rounded experience with a diverse range of classroom learning, personal growth and practical ministry opportunities.

As an integral part of the Arise Church family, you'll learn more about God, be empowered in your unique gifts, and be equipped in areas of leadership and ministry experience.

Come and be a part of building the body of Christ, and impact this world in an even greater measure.

We offer a variety of courses that provide an environment where students are challenged to grow in their gifts and talents to operate with increased effectiveness in ministry.

Whilst practical, task-based work is a key focus for any students, an even greater importance is placed on spiritual input. Worship and discipleship are an integral part of the programme, where students are ministered to by Arise pastors and leaders.

Each student will have a supervisor and a mentor that they will meet with regularly. The supervisor will manage their workload and provide opportunities to grow their skills. Student mentors will help them grow spiritually and provide guidance and support as they grow in their ministry experience.

Each students will be provided with a role description from their supervisor that details the roles and responsibilities they will have in their role.

Each semester students will sit down with the supervisor and do a development plan that lays out what each students wants to grow in spiritually, personally and in their roles.

This document is kept in the students profile and is available for students to take away each year.

Every day in the office is varied and offers new opportunities for learning and growth.

Certificate in Arise Ministry School

Practical Internship

The Practical course allows students to gain ministry experience in an environment where students are challenged to grow in their skills and operate with increased effectiveness for ministry. In the Certificate and Diploma courses, students will be allocated a study day. For those within the practical stream, students will exchange this day for a practical day. This allows students to have bigger portfolios where they can use the skills they are learning in a fast-paced office environment, often alongside a team.

Identical to the Certificate and Diploma programme, students will have a supervisor and mentor that they will meet with regularly.

We recommend first years complete the Certificate or Diploma course option and then continue onwards to the Practical stream within their second and third years.
